Let's Get Started! What Info do I need to get my listing up and running?

We will need

1. Business Contact Info (for business communications)

Business Name -

Business Contact Person -

Business Address -

Business Phone -

Business E-mail -

2. Public Business Info to be displayed online

Business Name -

Business Address -

Business Phone -

Business E-mail -

Business Website -

3. up to 8 High Quality photos - The photos will be cropped to a ratio of 1440pixels by 700pixels in order to fit our site design. This means your photos should be at least 1MB in filesize and should be landscape (horizontal) as opposed to portrait (vertical) photos (if you're not sure, just send the best photos you have and we can let you know if they will work).

4. Customized Business Description - Please provide a description of your business. There is no limit to the length, but the information should be good and relevant. To improve the 'searchability' of your listing, think about what the 'keywords' are for your business and be sure to include those in your description.

Please do not copy and paste text from somewhere else on the internet. Duplicating text from your website or any other will hurt your listing, lakeplacid.com, and the site from which you took the text (it has to do with how google indexes the internet).

We will be more than happy to help you select photos and craft your customized business description, just let us know!

Materials should be e-mailed to Glenn Pareira, glenn@roostadk.com.
