ECLIPSE TIMING

What time will the total solar eclipse take place in my Adirondack community?

Your exact experience of a total eclipse depends on your location along the path of totality. Those who are closest to the center of this path will enjoy around 3.5 minutes of total eclipse. To find the specific timing for your community, you can visit eclipse2024.org and enter your town's name in the upper right corner.

Here's a chart that provides a quick overview of the timeline for some Adirondack communities. Keep in mind that even within a single community, the timing may vary based on your specific location. If the second and third columns don't have a time listed, it means your location is just outside the path of totality. These locations will experience a partial eclipse that is in the high 90th percentile, and glasses will be required for the entire duration of this experience.

TOWN	PARTIAL STARTS	TOTALITY STARTS	TOTALITY DURATION
Arietta	2:11 p.m.	--	--
Au Sable Forks	2:13 p.m.	3:25 p.m.	3m 25s
Benson	2:11 p.m.	--	--
